

STRATEGIC PORTFOLIO ROADMAPPING

Get the strategic project portfolio management capabilities you need, quickly and easily.

Every NH360 Accelerator is designed to be implemented quickly with a minimum amount of consulting or configuration. Leveraging best practices garnered from years of successful client engagements, these powerful Accelerators provide precisely the capabilities you need, without weeks or months of configuration.

NH360° – Portfolio Roadmapping Accelerator

The ability to create and maintain effective roadmaps is a critical component of any transformation, allowing all stakeholders to review plans collaboratively, to make adjustments instantly, and to assess the implications of those potential changes. The NH360 Roadmap Accelerator delivers powerful capabilities that make it easy to create and share beautiful Strategic Portfolio Roadmaps in minutes!

Key Features

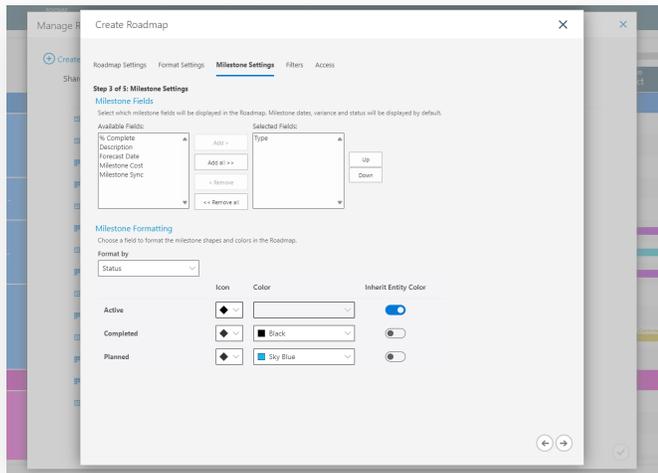

An essential portfolio management tool, a roadmap helps visualize and communicate the performance of both your near-term and multi-year strategic plans.

Manage Macro Schedules and Dependencies

Portfolio roadmapping capabilities help you to gain a clearer understanding into the “six degrees of separation” between all investments.

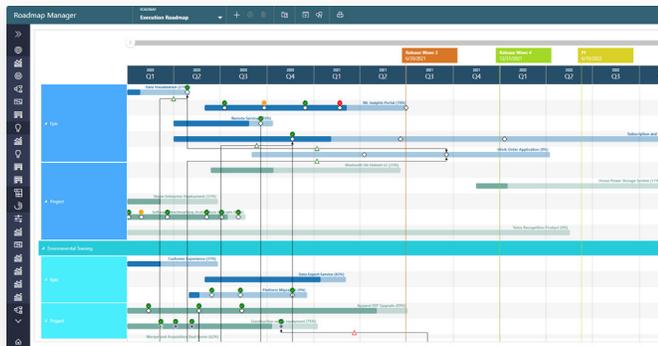

- Easily consolidate initiatives, projects & epics
- Establish and keep track of key milestones and deliverables
- Manage inter-dependencies between initiatives, projects, epics and more
- Quickly identify at-risk milestones and dependencies

Create Dynamically Maintained Roadmaps with Just Few Clicks

NH360’s powerful roadmapping software makes it easy to create, share and automatically maintain beautiful roadmaps in minutes. This roadmap management software stands alone—simply connect to your data source and get started immediately.

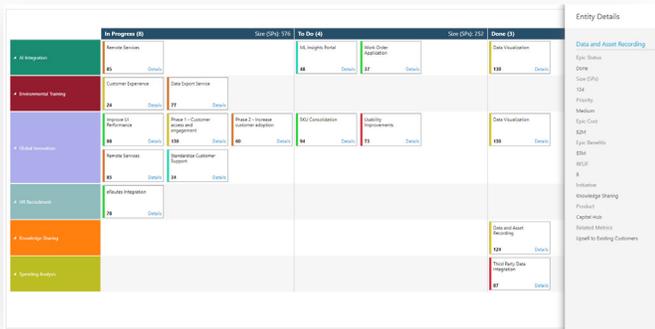

- Wizard-guided configuration makes implementation a breeze
- Choose from Project Portfolio Timelines or Boards roadmap templates
- Automatically pre-populate your roadmaps or manually build them yourself
- Set roadmaps to be shared or private
- Share roadmaps as pdf files or as printouts

Visualize Roadmaps in a Portfolio Timeline

View all work in a time-phased view to gain a clearer understanding into the relationships and dependencies between all investments within your project portfolio.

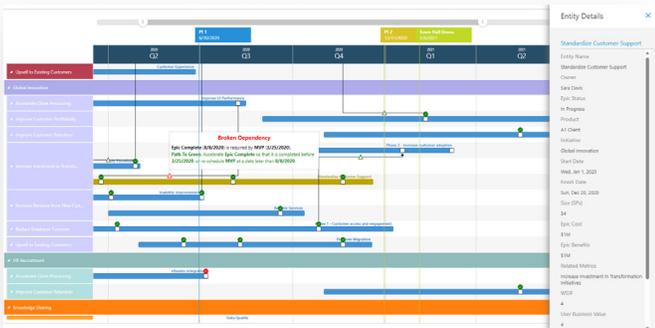

- Track time-phased initiatives using timeline roadmaps
- Overlay milestones and visualize inter-dependencies
- Timelines update automatically as new information is added or changed
- Align PPM execution efforts with portfolio-level key events with just a few clicks
- Group, sort, and filter information using any fields from your records

All Teams Can Now Enjoy Boards Views

Whether your team executes using Agile or traditional project execution, it's easy to visualize the work of all teams using a boards view that is dynamic and configurable.

- Plan and track all project work on one screen
- See backlog, scheduled or in-progress work
- Change project status or categories with a simple drag-and-drop
- Quickly drill-down to the entity record for detailed information
- Create and view Boards from any data in the system, including projects-by-workflow, projects-by-health and more

Manage and Visualize Project & Portfolio Dependencies

Use roadmap to gain a clearer understanding into the "six degrees of separation" between all investments.

- Establish and keep track of key project milestones and deliverables
- Manage and visualize project, program, and portfolio inter-dependencies
- Quickly identify at-risk project milestones and portfolio dependencies
- Visualize and share key portfolio events within the roadmap
